Customized Curriculum

MP3 understands that not all students learn the same way, just like not all teachers teach the same way. That's why we offer choice in approved curriculums to meet your child's learning style as well as parent's teaching style. Our staff is excited to share their "top picks" of curriculum for families new to MP3 as well as veteran homeschool families looking for something new to add to their learning plans.

Jumpstart Curriculum for MP3

Selecting curriuclum can be exciting, fun, and overwhelming especially if you are new to homeschooling. Take some time this summer to read about curriculum options for the subjects that you'll be teaching this year. When our SLPCs (teachers) return from summer vacation on August 31st they'll be reaching out to you to find out which curriculum will be the best fit for you and your family. Getting curriculum honed in will feel good so you have a plan for a positive start to the school year!
