Do you have children in the Meridian School District? (check all that apply)	What additional information would you like the task force to consider in order to help all families feel included and welcome in the education that will be offered?
I am a member of the Meridian community without children currently in Meridian Schools	Communication from the district will go a long way on this issue. Parents/guardians have real concerns and those need to be honored. However, MSD cannot let a vocal minority, fueled by misinformation, bully to get their way. Misinformation about the bill, about the curriculum and what will be taught is widely spread right now.

I have a student at Meridian High School	I hope meridian chooses the new sex Ed curriculum wisely. There's a lot of perverted content being taught to children in public schools. Please be transparent to the parents so we can decide what our children should/shouldn't be apart of.
I have a student at Meridian High School	rapist
I have a student at Meridian High School	No adult state employee should be allowed to engage in discussions of a sexual nature with other people's minor children. This is known as grooming. This is exploitation. This is traumatizing for many kids and robs them of their privacy. Tax payer funded public school is NOT the place. Public school teachers are not pastors, or doctors or therapists. The State has no right to sexualize children in the name of "sociological development".

I have a student in 4th or 5th grade at Irene Reither, I have a student at Meridian High School	<p>I do not feel the “task force” will be representative of everyone as there are between 1-2 parents per K-5, Middle and High School allowed if their application is accepted?</p> <p>The application, which had to be printed out and submitted prior to Nov 1st.... stated participants had to be able to attend all 3 or 4 meetings, of which happen to be days I’m personally working.</p> <p>In my opinion the application and parental inclusion process was done with ulterior motive. It seems the districts mind has been made for them in complying with SB 5395... as it is with other matters such as mandates.</p> <p>Thank you for your time.</p>

I have a student in 4th or 5th grade at Irene Reither, I have a student at Meridian Middle School	Consent classes for boys: no/maybe means no. Education on pro-choice options. Toxic masculinity. Gendered wage gap, and how boys/men can combat it (request the same pay as the most demographically marginalized employee in the organization. Boys can do domestic work/chores too. Being a stay at home parent isn’t only a “woman’s job”. White male entitlement. These are all things that should be examined in the class.

I have a student in PK-3 at Irene Reither	I would like them to consider, that this is a very sensitive subject and not all families feel that it is the school's place to be discussing this with their children. I do not believe that my children should be learning about sexual orientation, gender issues, etc. from school. I as a parent will be the one to teach my child about these issues when I feel it is appropriate.
I have a student in PK-3 at Irene Reither	
I have a student in PK-3 at Irene Reither	The LGBTQ should not be taught in elementary or middle schools. Children are already experiencing way too many hormone changes and they can be confused with their bodies changing. Children should not be coerced by politics at such a young age.
I have a student in PK-3 at Irene Reither	LGBTQ should not be taught in elementary and middle schools. Children are all ready experiencing hormone changes, and they can be confused with their bodies changing. Children should not be coerced by politics at such a young age.

I have a student in PK-3 at Irene Reither	I would like the task force to consider teaching all students about consent, personal boundaries, and sexual abuse prevention. I think that all grade levels will benefit from learning these concepts and is critical for creating a safe environment for all students. Thank you for sending this to the community and considering our input.

I have a student in PK-3 at Irene Reither, I have a student at Meridian Middle School	The latin community. Sexual health has always been something that isnt discussed. Helping them open their minds about actually engaging and talking to their children.
I have a student in PK-3 at Irene Reither, I have a student at Meridian Middle School	I think that school should not have sexual education. But since there is no choice at this time it should be very general and basic. Just to comply with the law. Also before each lesson is presented to kids, it needs to be presented to parents. Parents also need to have a choice of letting their kids hear that info or not. If some parents feel their kids need dipper education in this area in school. Then those kids can have separate lessons.

I have a student in PK-3 at Irene Reither, I have a student at Meridian Middle School, I have a student at Meridian High School	Try to keep curriculum non-binary gender. This should speak to all children regardless of their gender identity along with sexual orientation.
I have a student in PK-3 at Irene Reither, I have a student at Meridian Middle School, I have a student at Meridian High School	One positive thing that happened this year that makes us feel included is that IRE now has two secretaries that speak Spanish. The language barrier sometimes can make it difficult for us to express our opinions as parents. By having staff in the schools that can communicate with us in our own language makes things easier.

I have a student in PK-3 at Irene Reither, I have a student in 4th or 5th grade at Irene Reither	I would strongly encourage no sexual abuse or any sex Ed for k-4 grades. In 5th I believe talking about the reproductive parts of each gender but strongly disagree with discussing sex of any kind, this should be taught at home when the individual child is ready. I believe 7th grade is a better time for this to be talked about more openly.
I have a student in PK-3 at Irene Reither, I have a student in 4th or 5th grade at Irene Reither	Gender-inclusivity. Lessons focused on non-binary individuals. Teaching students they reasons and importance of using they/them pronouns and why it is important to respect a person's chosen pronouns.

I have a student in PK-3 at Irene Reither, I have a student in 4th or 5th grade at Irene Reither	I would appreciate a 'rough draft' as soon a reasonably possible sent out to the families. I have a daughter in 1st grade and a daughter in 4th grade. I have heard a lot of mixed information regarding sexual education, especially for the very young kids. Most of it could be hearsay/incorrect, but it has gotten my wife and I on high alert, so we are very interested to know precisely what our 1st grade girl and 4th grade girl are going to be learning. Thank you for all your hard work!
I have a student in PK-3 at Irene Reither, I have a student in 4th or 5th grade at Irene Reither	Once the task force has nailed down the curriculum I would like to see it sent out to parents to approve. I feel like parents don't know the specifics of the curriculum.
I have a student in PK-3 at Irene Reither, I have a student in 4th or 5th grade at Irene Reither	We would like to hear what topics are being covered before they are taught in class that way we can choose how to handle each topic on a case by case basis so that it aligns with our family values & our comfort level.

I have a student in PK-3 at Irene Reither, I have a student in 4th or 5th grade at Irene Reither, I have a student at Meridian High School	Human growth, HIV classes, and health classes were already enough for our children to learn about sexual content. Comprehensive Sex education is unnecessary. It's both psychological and mental trauma for our young children no matter how innocent you try put the curriculum together, the state requires what they require, and you will follow their requirements.

I have a student in PK-3 at Irene Reither, I have a student in 4th or 5th grade at Irene Reither, I have a student at Meridian Middle School	I feel like parents should be fully aware of what is being taught before the actual teaching is done. Parents should have the right to remove their children from any such lessons if that is their choice.
I have a student in PK-3 at Irene Reither, I have a student in 4th or 5th grade at Irene Reither, I have a student at Meridian Middle School	The district should challenge new regulations as requested by several community members. I always hear how there is not enough time to focus on core education. Adding more curriculum takes chews up additional time.
